Management is also responsible for managing the Company in accordance with the strategy, plans and policies approved by the Board to achieve objectives agreed by the Board.

Members of Management who report to the Chief Executive Officer have their roles and responsibilities defined in position descriptions.

The Board may impose further specific limits on the delegations to the Managing Director or Chief Executive Officer. These delegations of authority will be maintained by the Company Secretary and will be reviewed by the Board as appropriate from time to time.

(d) **Structure of the Board**

The structure of the Board is determined in accordance with the following principles:

In assessing the Independence of Directors, the Company has regard to Principle 2 (Recommendation 2.3) of the Corporate Governance Principles and Recommendations and regards an Independent Director as a non-executive Director who is not a member of Management and who is free of any interest, position, association or other relationship that might influence, or could reasonably be perceived to influence, in a material respect his or her capacity to bring an independent judgement to bear on issues before the Board and to act in the best interests of shareholders, and who:

- (i) is not a substantial shareholder of the Company or an officer of, or otherwise associated directly with, a substantial shareholder of the Company;

The Independence of the Directors will be regularly reviewed (at least annually) and the status of Independent Directors will be disclosed, together with the length of service of each Director, in the Company's Annual Report or on the Company's website.

Each non-executive Director will inform the Board or the Remuneration and Nominations Committee of any change to their interests, positions, associations or relationships that could affect their Independence.

Any change to a Director's status as an independent Director will be disclosed and explained to the market in a timely manner. Any decision by the Board not to change a Director's status as an Independent Director despite the Director having an interest, position, association or relationship of the type described in this document will be disclosed and explained in the Company's Annual Report or on the Company's website.

A Director will not hold office for a period of more than 10 years unless approval of any additional term is given by the Board.

In an effort to ensure that the Board comprises members with a broad range of experience, expertise and skills relevant to the Company, the Board maintains a skills matrix which identifies the current skills, knowledge, experience, expertise and diversity of the Board and those the Company seeks to achieve across the composition of the Board.

(f) **Board meetings**

(b) Adequate Consideration

Common law duty – to give adequate consideration and duty not to fetter a director’s discretion

The duty to give adequate consideration to matters for decision and to keep discretions unfettered requires directors to give adequate consideration to matters when exercising their discretions. They must take positive steps to inform themselves about matters and not simply acquiesce in the decision making process.

(c) Care and diligence

Common law and Corporations Act duty – to act with a reasonable degree of care and diligence in exercising a director’s powers and discharging a director’s duties

Under the Corporations Act, a director must exercise their powers and discharge their duties with the degree of care and diligence that a reasonable person would exercise if they:

- (i)** were a director of a corporation in the same circumstances as the company; and
- (ii)** occupied the same office and had the same responsibilities as the director.

Case law on these provisions illustrates that the scope of the obligation of care and diligence will depend upon the nature of the director’s role and their position with the Company. For instance, generally executive directors will be subject to a higher standard of care and it has been held that a chairperson of a company who is also chairperson of the audit & risk management committee may have a higher duty of care than a mere non-executive.

Apart from the Corporations Act obligation, a failure of a director to act with a reasonable degree of care and diligence is also likely to be considered negligent.

Business Judgement Rule

The Corporations Act provides for a mechanism for directors to avoid a breach of their duty of care and diligence where certain parameters are met. This is known as the “business judgement rule”. All Directors of the Company are expected to be familiar with this rule.

In summary, a director who makes a business judgment is taken to meet the duty of care and diligence (whether under statute or the common law) if they:

- (i)** make the judgment in good faith and for a proper purpose;
- (ii)** do not have a material personal interest in the subject matter of the judgment;

- (iii) inform themselves about the subject matter of the judgment to the extent they reasonably believe to be appropriate; and
- (iv) rationally believe that the judgment is in the best interests of the corporation.

The director's or officer's belief that the judgment is in the best interests of the corporation is a rational one unless that belief is one that no reasonable person in their position would hold.

A 'business judgment' is any decision to take or not take action in respect of a matter relevant to the business operations of the Company.

Whilst the business judgement rule assists directors to avoid a breach of their duty of care and diligence both under the Corporations Act or under the common law, it does not relieve breaches of the other duties of directors, whether under the Corporations Act or otherwise, described above.

(d) **Act in Good Faith**

Common law and Corporations Act duties:

- (i) *To act in good faith in the best interests of the Company*
- (ii) *To act for a proper purpose*
- (iii) *Not to improperly use the director's position*
- (iv) *Not to improperly use information obtained by virtue of the director's position*

The duty to act in good faith in the best interests of the company requires directors to use their discretions honestly and with reasonable care and diligence for the purposes for which they were conferred. Directors must not promote his or her personal interest by making or pursuing a gain in circumstances in which there is a conflict, or a real possibility of a conflict, between his or her personal interests and those of the company. Additionally, a director must not act to promote the interest of a third person where there is a conflict, or a real possibility of conflict, between duties owed by the fiduciary, on the one hand, to the company and on the other, duties owed to the third person.

F.5 AVOIDING CONFLICTS

Attending and Participating in Board Meetings

The duties in relation to conflict are of particular importance when a director is considering whether or not they should attend and participate in Board meetings.

This rule requires a director to avoid situations in which there is a "real and sensible possibility" of conflict between the director's personal interests and the company's interests. This duty is also of particular significance where directors hold multiple directorships. Whilst merely holding multiple directorships, even in competing companies, is not a breach of the rule against conflict, the rule will be breached if the director discloses confidential information which the director has gained as a result of their directorship of the other company.

Consequently, if a director has a conflicting personal interest, whether direct or indirect, in a matter to be discussed at a board meeting, they should firstly disclose this matter to the Board and secondly consider whether participating in the matter would result in a breach of their fiduciary duties.

Material Personal Interest

A director who has a material personal interest in a matter that relates to the affairs of the Company is required to disclose this to the Company.

Directors of the Company who have a material personal interest in a matter generally must not attend a directors meeting while the matter is being considered or vote on the matter. However, a director may do these things if a resolution of the Board is passed to this effect or if ASIC consents.

Despite this, the same cautions must be exercised as discussed above if the other directors consent to a conflicting director participating in the meeting. The conflicting director should ensure that participation won't be in breach of their fiduciary duties or the duties imposed by the Corporations Act.

Common Directorships

These duties become particularly relevant where companies have directors in common and a decision involving a potential conflict of interest is required to be taken by one of the companies. In this case it is prudent for the common directors not to participate in the relevant Board's decision making process on that matter.

Directors Providing Services to the Company

In order to capitalise on the professional/technical expertise or experience of directors of the Company from time to time (other than in their capacity as directors), the Company may engage the services of that director (or a firm associated with the director) only on the following terms and conditions:

- (a) the scope of the consultancy (or other services) is identified, together with a schedule of estimated costs and charge out rates to be incurred with the director or their firm;
- (b) (where considered necessary or appropriate) the directors seek additional quotations for the same services; and
- (c) the consultancy services are approved by the directors.

F.6 CONFIDENTIALITY

Directors of the Company will have access to any information which the Directors may consider necessary to perform their responsibilities and exercise their independent judgement when making decisions. All information received by a Director in these circumstances must be considered confidential and at all times remains the property of the Company.

Any confidential information of the Company acquired by a Director during the Director's appointment must not be disclosed by the Director, or the Director must not allow it to be disclosed, to any other person unless the disclosure is authorised by the Chairperson or is required by law or regulatory body (including the ASX).

F.7 INDEPENDENCE

The Board is required to regularly assess the Independence of Directors to ensure that Directors do not have any relationship or interest that interferes with their unfettered and independent judgement, or could reasonably give the impression that the Director's Independence has been compromised.

Set out in Section A.1(c) are the principles for assessing the Independence of Directors. The Nominations Committee is responsible to considering the Independence of Directors and candidates who are to be put forward for election as a Director. In the absence a Nominations Committee, this function is performed by the Board.

Directors are required to co-operate fully with any assessment process and give all reasonable information requested.

Directors are required to fully and frankly tell the Board about anything that:

- (i) may lead to an actual or potential conflict of interest or duty;
- (ii) may lead to a reasonable perception of an actual or potential conflict of interest or duty;
- (iii) interferes with a Director's unfettered and Independent judgement or their ability to bring such judgement to bear on issues before the Board; or
- (iv) could reasonably give the impression that a Director's Independence has been compromised.

Directors are also required to tell the Company about any interest which they may have in securities of the Company (or of a related body corporate) or interest in any contract relating to those securities. This is discussed in greater detail below.

F.8 DEALINGS BY DIRECTORS IN SECURITIES OF THE COMPANY

The Company strongly encourages its Directors and Employees to become shareholders in the Company. However, when a Director trades in Securities of the Company it is important to ensure that these transactions do not reflect badly on either the Director or the Company.

The Directors, along with other Employees and certain contractors, must comply with the Company's Securities Trading Policy.

F.9 NOTIFICATION TO ASX OF DIRECTORS' INTERESTS

Directors must also be aware that pursuant to the provisions of the Corporations Act they are obliged to provide the ASX with appropriate notifications of their interests in the Company.

Pursuant to section 205G of the Corporations Act, directors must notify the ASX of their:

- (a) relevant interests in securities of the company or of a related body corporate;
- (b) contracts:
 - (i) to which the director is a party or under which the director is entitled to a benefit; and
 - (ii) that confer a right to call for or deliver shares in, debentures of, or interests in a managed investment scheme made available by, the company or a related body corporate.

Directors must also ensure that the above interests are notified to the ASX in accordance with Listing Rule 3.19A. This Rule requires the Company, not the particular director, to notify the ASX of the above interests.

Accordingly, the Company is to enter into an agreement with its Directors under which the directors are obliged to provide the necessary information to the Company. An agreement of this nature, recognises that much of the information required by the ASX, under section 205G, is held by the directors, by virtue of their position and role within the Company. By entering into a formal agreement, the Company ensures that the Directors of the Company have been notified of their disclosure obligations under the Corporations Act 2001 and the Directors authorise the Company to give the information provided by directors to ASX on their behalf and as their agent.

In particular, Listing Rule 3.19A provides that:

- (a) where a director is appointed – the Company must notify the ASX of the above interest within five (5) Business Days after the appointment (the appropriate form is Appendix 3X). Accordingly, directors will provide the following information as at the date of their

appointment as a director:

- (i) details of all securities registered in their name, including the number and class of the securities;
 - (ii) details of all securities not registered in the director's name but in which he/she has a relevant interest within the meaning of Section 9 of the Corporations Act, including the number and class of the securities, the name of the registered holder and the circumstances giving rise to the relevant interest; and
 - (iii) details of all contracts to which the director is a party or under which the director is entitled to a benefit, and that confer a right to call for or deliver shares in, debentures of, or interests in a managed investment scheme made available by, the Company or a related body corporate, including the number and class of the shares, debentures or interests, the name of the registered holder if the shares, debentures or interests have been issued, and the nature of the director's interest under the contract.
- (b) where a change in the above interests of a director occurs – the Company must outline the change in the director's interests to the ASX no more than 5 Business Days after the change occurs (the appropriate form is Appendix 3Y). Directors will need to provide to the Company on an on-going basis, as soon as reasonably possible after the date of the change and, in any event, no later than three (3) Business Days after the date of the change:
- (i) details of changes in securities registered in the director's name, including the following:
 - (A) date of change
 - (B) number and class of securities held before and after the change
 - (C) nature of change (eg, on-market, off-market)
 - (D) consideration paid or received in connection with the change
 - (E) if off-market, the value of the securities the subject of the change;
 - (ii) details of changes in securities not registered in the director's name but in which he/she has a relevant interest within the meaning of Section 9 of the Corporations Act, including the following:
 - (A) date of change
 - (B) number and class of securities held before and after the change
 - (C) name of the registered holder before and after the change
 - (D) circumstances giving rise to the relevant interest
 - (E) nature of change (eg, on-market, off-market)
 - (F) consideration paid or received in connection with the change
 - (G) if off-market, the value of the securities the subject of the change; and
 - (iii) details of all changes to contracts to which the director is a party or under which the director is entitled to a benefit, and that confer a right to call for or deliver shares in, debentures of, or interests in a managed investment scheme made available by, the Company or a related body corporate, including the following:

- (A) date of change
 - (B) number and class of the shares, debentures or interests to which the interest relates before and after the change
 - (C) name of the registered holder if the shares, debentures or interests have been issued
 - (D) nature of your interest under the contract.
- (c) where a director ceases to be a director – the Company must notify the ASX of the interests of the director at the time the director ceases to be a director, no more than five (5) business days after the director ceases to be a director (the appropriate form is Appendix 3Z). Directors must supply to the Company as soon as reasonably possible after the date of ceasing to be a director and, in any event no later than three (3) business days after the date of ceasing to be a director, the following information:
- (i) details of all securities registered in the director’s name, including the number and class of the securities;
 - (ii) details of all securities not registered in the director’s name but in which he/she has a relevant interest within the meaning of Section 9 of the Corporations Act, including the number and class of the securities, the name of the registered holder and the circumstances giving rise to the relevant interest; and
 - (iii) details of all contracts to which the director is a party or under which he/she is entitled to a benefit, and that confer a right to call for or deliver shares in, debentures of, or interests in a managed investment scheme made available by, the Company or a related body corporate, including the number and class of the shares, debentures or interests, the name of the registered holder if the shares, debentures or interests have been issued, and the nature of the director’s interest under the contract.

Directors should also be aware of the substantial shareholder provisions contained in section 671B of the Corporations Act which require certain notices to be served on the Company and the ASX when a shareholder (and their associates as defined in the Corporations Act) has relevant interests in at least 5% of the issued shares in the Company and there is a change of more than 1% in those holdings.

G.1 CONTINUOUS DISCLOSURE POLICY [PRINCIPLE 5]

(i) Introduction

(A) Overview

As a listed entity, the Company must make timely and balanced disclosure of all matters concerning it that a reasonable person would expect to have a material effect on the price or value of its securities. This Policy reflects Company's desire to promote fair markets, honest management and full and fair disclosure. The disclosure requirements described in this Policy must be complied with in accordance with their spirit, intention and purpose.

(B) Purpose

The purpose of this Policy is to:

- (a) summarise the Company's disclosure obligations contained in the ASX Listing Rules¹, the Corporations Act and incorporating the principles in the ASX Corporate Governance Principles and Recommendations²;
- (b) explain what type of information needs to be disclosed;
- (c) identify who is responsible for disclosure; and
- (d) establish a framework to enable the Company to provide shareholders and the market with timely and balanced disclosure of relevant information about the Company.

(C) Scope

This Policy applies to all Directors and Employees of the Company and its controlled entities.

On 2 April 2020, the Company became a subsidiary of Golden Investments (Australia) Pte Ltd (**Golden Investments**). The Company and Golden Investments subsequently entered into an agreement which governs the provision of information between the Company, Golden Investments and its nominee director/s on the Board (**Information Agreement**). For the avoidance of doubt, the disclosure requirements described in this Policy do not reflect the information sharing provisions contained in the Information Agreement, and do not apply to the provision of information between the Company, Golden Investments and its nominee director/s on the Board.

(D) Consequences of breach

Failure to comply strictly with this Policy may result in serious civil or criminal liability for the Company and its officers and could damage the reputation of the Company.

Failure by a Director or Employee of the Company to comply with this Policy may lead to disciplinary action being taken, including removal or dismissal in serious cases.

It is important that Employees and Management at all levels understand and comply with this Policy and its procedures.

(ii) The Company's disclosure obligation

(A) Disclosure principles

¹ And the principles in ASX Guidance Note 8 – Continuous Disclosure: Listing Rules 3.1-3.1B.

² Principle 5 – Make timely and balanced disclosure and Principle 6 – Respect the rights of security holders.

The Company is a public company listed on ASX. It is subject to continuous disclosure obligations under the Corporations Act and the Listing Rules (which have legislative force under the Corporations Act), in addition to periodic and specific disclosure obligations.

(B) What information must be disclosed?

The Company must immediately tell ASX any information concerning the Company of which it becomes aware that a reasonable person would expect to have a material effect on the price or value of the Company's Securities,³ unless an exception under the Listing Rules applies (as described below).

"**Immediately**" means "promptly and without delay". The standard of promptness expected by the market, the ASX and ASIC is very high; "Promptly and without delay" means doing something as quickly as it can be done in the circumstances (acting promptly) and not deferring, postponing or putting off to a later time (acting without delay).

The Company is "**aware**" of information if a Director or officer of the Company has, or ought reasonably to have, come into possession of the information in the course of the performance of their duties as a Director or officer of the Company.⁴

A reasonable person would be taken to expect information to have a "**material effect**" on the price or value of Securities of the Company if the information would, or would be likely to, influence persons who commonly invest in the Company's Securities in making a decision to buy or sell the Company's Securities.⁵

This kind of "**price-sensitive**" information may derive from the internal activities of the Company or may come from external sources, such as a joint venture partner, an unlisted entity in which the Company has an interest or a decision by a court or government body, as long as it "**concerns**" the Company.

Annexure A sets out a non-exhaustive list of examples of the kinds of "price-sensitive" information that the Company may be required to disclose. The examples reflect those provided by ASX in Listing Rule 3.1.

(C) Exceptions

The Company's obligation to disclose price-sensitive information does not apply if, and only if, each of the three following conditions is and remains satisfied:

1. one or more of the following five situations applies:
 - it would be a breach of a law to disclose the information;
 - the information concerns an incomplete proposal or negotiation (for example, a negotiation to enter into a new contract);
 - the information comprises matters of supposition or is insufficiently definite to warrant disclosure;
 - the information is generated for the Company's internal management purposes;
 - the information is a trade secret;
2. the information is confidential and ASX has not formed the view that it has ceased to

³ Listing Rule 3.1

⁴ Listing Rule 19.12

⁵ Corporations Act section 677

be confidential (i.e. not in the public domain); and

3. a reasonable person would not expect the information to be disclosed (for example, because the result of disclosure would be unreasonably prejudicial to the Company).

As soon as any one of the above three elements ceases to be satisfied, for example if an incomplete proposal nears completion or information ceases to be confidential, the Company must disclose the information to ASX immediately.

All Directors and Employees of the Company must preserve the confidentiality of any price-sensitive information concerning the Company they possess. **Disclosure of price-sensitive information must occur only in accordance with this Policy.** If information ceases to be confidential (e.g., if it is reported or referred to in the media or appears on any information agency screens, or is discussed on social media platforms), Directors and Employees must inform the Company Secretary immediately on becoming aware of that fact so as to allow the Company to comply with its continuous disclosure obligations.

(iii) **Disclosure Responsibility**

(A) The Disclosure Committee

The Company may establish a Disclosure Committee, which shall be comprised of:

- the Chairperson of the Board;
- the Chief Executive Officer;
- the Chief Financial Officer; and
- the Company Secretary.

(B) Responsibilities of the Disclosure Committee

The Disclosure Committee is responsible for the following matters, subject to any directions given by the Board from time to time:

- administering this Policy, monitoring its effectiveness and approving amendments to this Policy for recommendation to the Board;
- ensuring that the Company complies with its disclosure obligations;
- determining what information can or should be disclosed to the market and keeping all market sensitive information confidential;
- overseeing and coordinating the disclosure of information to the ASX, shareholders, analysts, stockbrokers, media and the public;
- educating Directors and Employees regarding their obligations and raising awareness about this Policy;
- preparing (or overseeing the preparation of), reviewing, verifying and approving proposed external announcements, other than administrative or routine announcements, and consulting with appropriate members of the Board, Management and external advisers where appropriate;
- implementing reporting processes and determining guidelines for materiality of information;

- ensuring that announcements relating to significant matters are referred to the Board; and
- approving the disclosure of information to ASX in relation to other matters.

(C) Responsibilities of the Board

The Board is responsible for approving this Policy and any amendments.

The Board must approve the text of all material announcements, including those relating to financial operating reports, financial projections, statements regarding future financial performance, changes to business strategy or other material updates. The approval of all such material announcements should be appropriately minuted.

The Board is responsible for monitoring the Company's compliance with its continuous disclosure obligations (although it may appropriately delegate this responsibility).

The Board must receive copies of all material market announcements promptly after they have been made to ASX.

(D) Responsibilities of the Company Secretary

ASX announcements that are administrative, or routine may be prepared by the Company Secretary without requiring further approval or formal consideration by the Disclosure Committee or the Board.

The Company Secretary is responsible for:

- communication with ASX in relation to Listing Rule matters;
- prior to each Board Meeting, confirming with the Disclosure Committee that there is no material requiring disclosure; and
- ensuring the Board papers include an agenda item entitled "Continuous Disclosure" (In this item, a member of the Disclosure Committee should either (i) confirm that there was no material brought to his or her attention requiring disclosure for the preceding month, or (ii) outline material which has been disclosed.

The Company Secretary will maintain a register of information disclosed to ASX, disclosed on the Company's website, decisions of the Disclosure Committee as well as other disclosures of a nature covered by this Policy (i.e. analyst briefings).

(E) Decisions of the Disclosure Committee

Where a decision of the Disclosure Committee is required, it must be made with the approval of the Managing Director or Chairperson (or their delegate).

Where a decision is made by the Board or the Disclosure Committee to disclose information or to recommend disclosure of information, the Disclosure Committee must ensure that the information disclosed:

- is balanced, factual and accurate; and
- is disclosed in accordance with the procedures set out in this policy; and
- takes into account information previously disclosed by the Company to the market, including financial expectations, commentary on likely results and detailed business plans or strategies.

The Company Secretary will maintain records of discussions and decisions of the Disclosure Committee.

(F) Who should you report information to?

Once a Director or Employee of the Company becomes aware of information that is, or may be, price-sensitive, they should immediately refer that information to the Company Secretary or, if that is not possible, to another member of the Disclosure Committee.

(iv) Disclosure procedures

(A) Assessment of information for release

Any member of the Disclosure Committee who receives information or is otherwise aware of information which they consider to be material and require disclosure under this Policy should immediately:

- forward details of the information to the other members of the Disclosure Committee;
- consult with internal divisions, its advisers or ASX (as necessary);
- prepare a market release for release to ASX;
- provide a copy of the release to the Board (if it relates to a significant matter);
- verify the statements in the market release;
- provide the market release to the Company Secretary to announce to ASX; and
- upload a copy of the market release to the Company's website.

(B) Authority to approve ASX announcements

As described above in section (c)(iii), any release which relates to a matter which is both material and strategically important for the Company, it must be approved by the Board.

(C) Release of information to ASX

The Company must immediately notify ASX of any undisclosed price-sensitive information in accordance with the Company's legislative and regulatory disclosure obligations and the procedures set out in this Policy.

If the Company becomes aware that information that should be released to ASX has become generally available or is available to a sector of the market, and that information has not been given to ASX, the Company must immediately give the information to ASX.

Disclosure of price-sensitive information to ASX must be made by the Company acting through the Company Secretary.

The Company will not engage in selective or differential disclosure of material information, or disclose any material information under an embargo arrangement that it intends to make public at a later time. All releases to the ASX will be promptly posted on the Company's website by the Company Secretary.

The Board receives copies of all market announcements via the ASX automated notifications.

(D) Release of information to the public

The Company must not publicly disclose price-sensitive information until it has given that information to ASX and has received an acknowledgment from ASX that the information has been released to the market.

After an acknowledgment has been received from ASX, information disclosed in compliance with this policy should be provided by email to all Director and members of Management managers and promptly placed on the Company's website in the section containing investor information.

The Board may also determine that the disclosed information should be released to major news services and other news outlets.

(E) Verification of Integrity of Information

Periodic reports released to the market which are not audited or reviewed by an external auditor follow an internal data verification process to ensure all information is materially accurate, balanced and provides investors with appropriate information to make informed investment decisions. This process includes separation of duties and multi-level review and approval.

(v) Authorised spokespersons

(A) Identity of authorised spokespersons

The number of authorised spokespersons of the Company must be kept to a minimum to avoid inconsistent communications and reduce the risk of material information being inadvertently disclosed to the market.

Only the following persons may act as authorised spokespersons of the Company:

- the Chairperson of the Board;
- the Chief Executive Officer;
- the Chief Financial Officer;
- the Company Secretary.

On specific occasions, the Board may authorise non-executive Directors or members of Management to act as authorised spokespersons of the Company.

(B) Employees and associated parties

No Employee or associated party of the Company (such as consultants, advisers, lawyers, accountants, auditors, etc) is permitted to comment publicly on matters confidential to the Company.

All Employees and associated parties must be aware of their obligation to keep non-public company information confidential.

In some circumstances, Employees and associated parties of the Company may be asked to sign confidentiality agreements.

(C) Procedure for comment by authorised spokespersons

The Disclosure Committee must approve the content of all public comments proposed to be made by an authorised spokesperson.

(vi) Dealing with outsiders

(A) Insider trading

It is unlawful for any Director or Employee to buy, sell or otherwise deal in the Company's Securities while in possession of undisclosed price-sensitive information (for example, prior to the release of the Company's financial results or an announcement by the Company of a negotiated joint venture).

It is also unlawful for a Director or Employee in possession of undisclosed price-sensitive information to encourage someone else to deal in the Company's Securities or pass the information onto someone they know or suspect may use the information to buy or sell or otherwise deal in the Company's securities.

The Company's policy on the trading of its Securities by Directors and Employees is set out in the Securities Trading Policy.

(B) Media

The Company must not provide "exclusive" interviews, stories or information to the media that contains material or price-sensitive information before that information has been disclosed to the market.

Where the Board considers it appropriate, the media may be invited to participate in the Company presentations to investors and analysts.

(C) Analysts**One-on-one and group briefings**

The Company recognises the importance of its relationships with investors and analysts. From time to time the Company conducts analyst and investor briefings. In these cases the following approach is adopted.

No material information is disclosed at these briefings unless it has been previously or simultaneously released to the ASX. Prior to any such presentations being used, the content of those presentations is reviewed for any new material and an appropriate record be kept of this review, which record will be maintained by the Company Secretary.

The Company does not permit selective disclosure of material information. All investors are to be treated in a balanced and fair fashion. One-on-one and group briefings between the Company and investors or analysts must be restricted to discussion of previously disclosed information.

If price-sensitive information is inadvertently disclosed at a briefing, the Company must immediately release that information to ASX.

Information provided to analysts and investors during a one-on-one or group briefing (such as slides) must be beforehand provided to the ASX for release to the market and posted on the Company's website as soon as practical to ensure all shareholders and investors have equal access to the Company information. If the Company gives a new and substantive investor or analyst presentation, the Company must immediately release a copy of the presentation materials to ASX.

Procedure for dealing with analyst, shareholder and investor queries

In responding to analyst, shareholder and investor queries, an authorised spokesperson must:

- only discuss information that has been publicly released;
- ensure all responses are balanced, factual and truthful; and

- confine comments on market analysts' financial projections to errors in factual information or underlying assumptions.

Where an analyst, shareholder or investor query can only be answered by disclosing price-sensitive information, the Company's authorised spokesperson must decline to answer that query. He or she should then refer the query to the Disclosure Committee so a formal decision can be made as to whether or not it is appropriate for the Company to disclose information in response to the query.

Analyst reports and forecasts

Where the Disclosure Committee resolves that the Company should comment on a report prepared by an analyst, the Company's comment must be restricted to information that the Company has publicly disclosed or information that is in the public domain.

The Company must not comment on analyst forecasts regarding earnings projections for the Company except:

- where the forecast differs significantly from the Company's published earnings projections (if relevant); or
- to correct any factual errors relating to publicly issued information and company statements.

The Company should not endorse, or be seen to endorse, analyst reports or the information they contain. The Company should not:

- externally distribute individual analyst projections or reports;
- refer to individual analyst recommendations on its website; or
- selectively refer, or publicly comment on individual analyst recommendations or proprietary research (except where necessary to correct a factual error in accordance with the disclosure policy).

Where the Company becomes aware that the market's earnings projections on the Company differ significantly from the Company's published earnings projections or own earnings estimates, the Company should issue a profit warning or company statement, if considered necessary by the Board, to avoid a false market.

(vii) Pre-results periods

To prevent the inadvertent disclosure of material information, during the periods between the end of the Company's financial reporting periods and the announcement of its results, the Company's Directors and management may not discuss any financial information, broker estimates or forecasts with investors, analysts or the media unless that information has previously been disclosed to the ASX.

Additional periods in which interviews or presentations are not permitted without prior approval of the Managing Director may be imposed. Relevant Personnel will be notified of any such additional periods.

(viii) Market speculation

Under ASX Listing Rule 3.1B, the Company is required to make a clarifying statement or announcement to the ASX in circumstances where the ASX considers that there is, or is likely to be, a false market in the Company's securities, and requests information from the Company to correct or prevent the false market. The Company is required to provide this information even if an exception to the continuous disclosure rules applies.

The Company should not comment on market speculation and rumour unless:

- there are factual errors contained in the speculation or rumour that could materially affect the Company;
- there is a move in the price of the Company's Securities which is reasonably referable (in the opinion of the Board) to the speculation or rumour; or
- the Company receives a formal request from ASX or a regulator.

Any comments made by the Company in response to market speculation and rumour must be authorised by the Board and must be limited to correcting factual errors.

The Company is committed to ensuring that a false market is not created in respect of the Company's Securities. If ASX considers that there is, or is likely to be, a false market in the Company's Securities and asks the Company to give information to correct or prevent a false market, the Company must give ASX any information needed to correct or prevent the false market.

Therefore, if any Personnel become aware of information that is based on a rumour or speculation that may give rise to a false market in the Company's securities, that person should provide such information to the Company Secretary (with as much detail as is reasonable in the circumstances), including, eg:

- details of the rumour or speculation;
- the source of the information; and
- the estimated effect of the information (if true) on the Company's business, finances, operations and / or reputation (if known).

On media speculation, the Company has a strict 'no comment' policy which must be observed by all Personnel. The Company may only make a statement about, or respond to, speculation or a rumour where the Company considers that it is obliged or required to do so. The Disclosure Committee will decide if a response is required.

(ix) Trading halts and voluntary suspension

In order to maintain a fully informed, fair and transparent market in respect of the Company's Securities, the Company may request a trading halt from ASX where:

- confidential information about the Company is inadvertently made public and further time is required to enable the Company to prepare an appropriate public announcement; or
- the Company is preparing to make a major company announcement and is concerned to prevent speculative or insider trading (for example, where the Company plans to announce a joint venture enterprise or profit warning).

The only persons authorised to request a trading halt are the Company Secretary or a member of the Disclosure Committee or a member of the Board.

A request for voluntary suspension may only be made with the approval of the Board, the Chairperson of the Board or the Chairperson of the Audit & Risk Management Committee.

H.1 SHAREHOLDER COMMUNICATION [PRINCIPLE 6]

(i) Purpose

The Company is committed to regularly communicating with shareholders in a timely, accessible and clear manner and does so through a number of mediums.

This Section H.1 sets out the Company's policies and processes to facilitate effective shareholder communication and involvement in the Company's business and performance.

(ii) Electronic and written communications

The Company seeks to ensure that the Annual Report to shareholders provides a clear and detailed understanding of the Company's activities, performance and position in relation to the prior reporting period. Copies of the Annual Report are posted to shareholders unless they have elected to receive communications electronically, in which case they are emailed to shareholders. In addition, a copy of each Annual Report can be accessed and downloaded from the Company's website at www.stanmore.net.au or the announcements page on ASX at www.asx.com.au.

The Company is committed to complying with its continuous disclosure and regular reporting obligations under the ASX Listing Rules and the Corporations Act. These obligations and the Company's policies concerning disclosure are set out in its Continuous Disclosure Policy, summarised in G.1 above. As such, the Company provides shareholders and the market with timely disclosure (unless an exception applies in which case disclosure may be delayed or withheld) of material information concerning the Company which has or could reasonably be expected to have a material effect on the price or value of the Company's securities.

Copies of all announcements made by the Company can be accessed and downloaded from the Company's website at www.stanmore.net.au or the announcements page on ASX at www.asx.com.au. Periodically, the Company will post or email communications directly to shareholders, copies of which are available on the Company and ASX websites.

(iii) Company's website

The Company's website (www.stanmore.net.au) contains information about the Company and its business as well as information specifically relevant to shareholders, including shareholder communications, market announcements and related information. Investor information is posted in a separate section on the website from other material about the Company.

Relevant media releases, market announcements and the Company's policies and charters are available on the Company's website.

The "Corporate Information" section of the Company's website includes information about the Company's Directors, the constitution, board and committee charters and other policies that are likely to be of interest to shareholders and other stakeholders.

(iv) Use of electronic and other technology

In the interests of efficiency, the Company (including through its share registry) sends all communications to Shareholders electronically unless they have elected to receive communications by post. The Company will post a copy of any Shareholder communication to a Shareholder who requests a printed copy.

Shareholders can at any time elect to receive communications from the Company (and its share registry) by post rather than electronically, by contacting the share registry and updating their details to record this communication instruction.

The Company may consider the use of other reliable technologies as they become widely available and accepted.

(v) Investor relations program

The Company has an investor relations program which may include any number of scheduled and ad hoc interactions with institutional investors, private investors, sell-side and buy-side analysts and the financial media.

At a minimum, so as to ensure that shareholders and other stakeholders have a full understanding of the Company's performance and strategies, the Company will convene analyst briefings 1 time a year on the financial performance and objectives of the Company.

These updates provide an opportunity for analysts to speak directly with senior management and ask questions. These briefings are governed by strict protocols that ensure comments are restricted to information previously disclosed to the market or information which is not price sensitive.

Supporting information, such as management presentations are made available online on the Company's website.

(vi) Shareholder meetings

General meetings of shareholders are an opportunity for the Company to communicate with Shareholders.

The Company's Board encourages the participation of Shareholders at general meetings of shareholders, and in particular, the Annual General Meeting. In particular, Shareholders are encouraged to attend (in person, by proxy or through electronic means (if available)) to not only vote at meetings, but to ask questions of Directors, members of Management and the external auditor.

The Company's external auditor attends each annual general meeting and is available to answer questions concerning the conduct of the external audit and the auditor's report.

The Company conducts general meetings in accordance with its Constitution, the Corporations Act and the ASX Listing Rules, including the preparation of notices of meeting. Notices of meeting for general meetings clearly, concisely and accurately set out the business to be considered at the meeting by shareholders. Notices of meeting are emailed to Shareholders (or posted if the Shareholder has elected to receive communications by post rather than electronically) and are available on the Company and ASX websites.

The Company must ensure that all substantive resolutions at a general meeting of shareholders are decided by a poll rather than by a show of hands.

(vii) Shareholder inquiries

Any shareholder inquiry that is not resolved by the share registry is referred to the Company Secretary or their delegate. Shareholder inquiries about corporate performance or requests for corporate information are referred to the Chief Executive Officer and the investor relations adviser.

(viii) Share registry and contact details
